DETAILED ACTION

1. The location of your application in the PTO has changed. To aid in correlating any papers for this application, all further correspondence regarding this application should be directed to Art Unit 1644, Group 1640, Technology Center 1600.
2. Applicant's Preliminary Amendment, filed on July/10/00 (Paper No.3), is acknowledged.
Claims 1-19 have been canceled.
Claims 20-39 have been added.
Claims 20-39 are pending in instant application.

Election/Restrictions

3. Restriction to one of the following inventions is required under 35 U.S.C. 121 and 372:
This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in response to this Office Action, to elect a single invention to which the claims must be restricted:

- I. Claims 20-30, drawn to an assay method for identifying an agent useful in the treatment of an allergic or hypersensitivity condition.
- II. Claim 31, drawn to a pharmaceutical composition comprising an agent identified in the assay method.
- III. Claims 32-39, drawn to a method of treating a subject for allergic or hypersensitivity condition.

The inventions listed as Groups I-III above do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons:

Consistent with the International Search Report, the Invention of Group I-III was to have no special technical feature that defined the contribution over the prior art of Nashar *et al.*, and Holmgren *et al.*

Art Unit: 1644

Nashar *et al.* teach that EtxB binds to GM1 while EtxB mutant which has a reduction in binding to GM1 has an increase in IgG1 production.

Holmgren *et al* teach mucosal vaccines based on the use of cholera toxin B subunit either coupled to antigens or not coupled to antigen as immunogen, carrier and adjuvant.

Since Applicant's Inventions do not contribute a special technical feature when viewed over the prior art, they do not have a single general inventive concept and lack unity of invention.

4. Applicant is advised that the response to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed.
5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 C.F.R. § 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a diligently filed petition under 37 C.F.R. § 1.48(b) and by the fee required under 37 C.F.R. § 1.17(h).
6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Phuong Huynh "NEON" whose telephone number is (703) 308-4844. The examiner can normally be reached Monday through Friday from 8:00 am to 5:00 p.m. A message may be left on the examiner's voice mail service. If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Christina Chan can be reached on (703) 308-3973. Any inquiry of a general nature or relating to the status of this application should be directed to the Technology Center 1600 receptionist whose telephone number is (703) 308-0196.
7. Papers related to this application may be submitted to Technology Center 1600 by facsimile transmission. Papers should be faxed to Technology Center 1600 via the PTO Fax Center located in Crystal Mall 1. The faxing of such papers must conform to the notice published in the Official Gazette, 1096 OG 30 (November 15, 1989). The CM1 Fax Center telephone number is (703) 305-3014.
